Tom 154 - Tom 159, 1965

Vol. 5, Nos. 1-6

January-November, 1965

Pages 1-1692

ANNUAL INDEX OF AUTHORS

| | |
|--|------|
| Agranovič, M. S. General boundary value problems for integro-differential elliptic systems | 419 |
| Aizenberg, L. A. Integral representations of holomorphic functions of several complex variables | 307 |
| Akilov, G. P. and Rubinov, A. M. The method of successive approximations for determining the polynomial of best approximation | 951 |
| Al'ber, S. I. Homologies of the space of nonoriented loops and their application to the calculus of variations in the large | 312 |
| On n -dimensional problems in the calculus of variations in the large | 700 |
| Alekperov, N. I. A boundary value problem with a complex weight function | 1498 |
| Alekseev, V. G. On conditions of strong equivalence of Gaussian measures in a functional space | 1501 |
| Allahverdiev, DŽ. Ė. On completeness of the system of eigenelements and adjoined elements of operators which are rational functions of a parameter | 1612 |
| Andrianov, A. N. and Fomenko, O. M. Fourier coefficients of parabolic forms | 1203 |
| Andruhaev, H. M. The problem of adding prime and "almost" prime numbers in algebraic number fields | 1666 |
| Andrunakievič, V. A. and Rjabuhin, Ju. M. Modules and radicals | 728 |
| Anučina, N. N. Difference schemes for solving the Cauchy problem for symmetric hyperbolic systems | 60 |
| Arakeljan, N. U. Uniform and asymptotic approximation by entire functions on unbounded closed sets | 849 |
| Aranson, S. H. Rotation of the field in a theorem from the theory of structurally stable dynamical systems on a torus | 733 |
| Arhangel'skii, A. Factor-mappings of metric spaces | 368 |
| Arnautov, V. I. On the theory of topological rings | 852 |
| Arnol'd, V. I. Instability of dynamical systems with several degrees of freedom | 581 |
| Arsen'ev, A. A. The Fourier transform of a slowly decreasing function | 65 |
| Asymptotic properties of the trace of the spectral function of a self-adjoint elliptic differential operator of the second order | 994 |
| Askerov, N. G.; Krein, S. G. and Laptev, G. I. A class of non-selfadjoint boundary value problems | 424 |
| Azbel', M. Ja. On the spectrum of difference equations with periodic coefficients | 1549 |
| Azbelev, N. V. and Caljuk, Z. B. Uniqueness of the solution of an integral equation | 611 |
| Bakel'man, I. Ja. Regular solutions of Monge-Ampère equations | 905 |
| Baklan, V. V. Variational differential equations and Markov processes in Hilbert space | 1553 |
| Bancuri, R. D. and Džanašija, G. A. Convolution equations for a half-axis | 372 |
| Baranovič, T. M. Free decompositions in the intersection of primitive classes of algebras | 473 |
| Barban, M. B.; Linnik, Ju. V. and Čudakov, N. G. The distribution of primes in short progressions mod p^n | 150 |

| | |
|--|------|
| Barban, M. B. and Vinogradov, A. I. <i>Number-theoretic basis of the probabilistic theory of numbers</i> | 96 |
| Bauer, F. V. (Bauer, F. W.) <i>Universal homotopy groups</i> | 376 |
| Berkovič, Ja. G. <i>On the existence of subgroups of a finite nonsolvable group</i> | 789 |
| <i>Finite groups with dispersive second maximal subgroups</i> | 1331 |
| Berman, D. L. <i>Theory of linear polynomial operations on topological groups</i> | 317 |
| <i>Majorants for the derivative of a polynomial</i> | 1619 |
| Berman, G. H. <i>Functors in the category of locally convex spaces</i> | 99 |
| Berman, S. D. <i>Integral representations of finite groups</i> | 954 |
| Bicadze, A. V. <i>A particular case of the problem of the slant derivative for harmonic functions in three-dimensional regions</i> | 477 |
| <i>The problem of the oblique derivative with polynomial coefficients</i> | 1102 |
| <i>A class of multidimensional singular integral equations</i> | 1616 |
| Biluta, P. A. <i>Some extremal problems in the class of mappings which are quasiconformal in the mean</i> | 428 |
| Birman, M. Š. <i>A local criterion for the existence of wave operators</i> | 1505 |
| Birman, M. Š and Ěntina, S. B. <i>A stationary approach in the abstract theory of scattering</i> | 432 |
| Bogdanov, Ju. S. <i>The use of generalized characteristic numbers in studying the stability of a stationary point</i> | 1137 |
| Bondarenko, P. S. <i>Computational algorithms for the approximate solution of operator equations</i> | 153 |
| Borok, V. M. and Myškis, A. D. <i>Solvability of difference equations throughout space</i> | 205 |
| Borovikov, V. A. <i>Diffraction of a plane wave on an interval</i> | 1557 |
| Brjuno, A. D. <i>Normal form of differential equations</i> | 1105 |
| Brušlinskaja, N. N. <i>Limit cycles for equations of motion of a rigid body and Galerkin's equations for hydrodynamics</i> | 1051 |
| Burd, V. Š. <i>On the branching problem of almost periodic solutions of nonlinear ordinary differential equations</i> | 1441 |
| Calenko, M. S. <i>Correspondences over a quasi-exact category</i> | 416 |
| Čencov, N. N. <i>Geometry of a manifold of probability distributions</i> | 1282 |
| Čeremnyh, Ju. N. <i>The behavior of solutions of the first boundary value problem for certain quasi-linear parabolic equations</i> | 780 |
| Čerepanov, G. P. <i>The Riemann-Hilbert problem for the exterior of cuts along a straight line or a circle</i> | 648 |
| Čemavskij, A. V. <i>Isotopy of cells and spheres in n-space for $k < \frac{2}{3}n - 1$</i> | 1194 |
| Černikov, S. N. <i>Infinite groups with prescribed properties of their systems of infinite subgroups</i> | 1610 |
| Cišang, H. (Zieschang, H.) <i>Automorphisms of planar groups</i> | 364 |
| Čistjakov, A. L. <i>On the scattering operator in the space of second quantization</i> | 1199 |
| Čumakin, M. E. <i>Generalized resolvents of an isometric operator</i> | 193 |
| Dektjarev, I. M. <i>ϕ-complete spaces metrized over a half-field</i> | 17 |
| <i>A closed graph theorem for ultracomplete spaces</i> | 1005 |
| Dem'janovič, Ju. K. <i>The net method for some problems in mathematical physics</i> | 1452 |
| Dincen, B. L. <i>The deviation of analytic functions from the arithmetic means of the partial sums of their Faber series</i> | 909 |
| Diskant, V. I. <i>Stability in Liebmann's theorem</i> | 1387 |

| | |
|--|------|
| Doičinov, D. <i>A unified theory of topological spaces, proximity spaces and uniform spaces</i> | 595 |
| Dubinskiĭ, Ju. A. <i>The first boundary value problem for degenerating quasilinear elliptic systems of differential equations</i> | 758 |
| Dynkin, E. B. <i>Non-negative solutions of a boundary value problem with oblique derivative prescribed on the boundary</i> | 1063 |
| Džabrailov, A. D. <i>On some function spaces. Direct and inverse imbedding theorems</i> | 1457 |
| Džabrailova, È. M. <i>The completeness of a system of finite-dimensional invariant subspaces of a non-selfadjoint singular differential operator of order two with respect to a real weight function</i> | 1008 |
| <i>The spectrum of a singular non-selfadjoint differential operator of order two with respect to a complex weight function</i> | 1055 |
| Džavadov, M. G. <i>On the completeness of a certain set of the eigenfunctions of a non-selfadjoint differential operator</i> | 1571 |
| Džrbašjan, M. M. <i>Parametric representation of certain general classes of meromorphic functions in the unit circle</i> | 1058 |
| <i>Representation of certain classes of entire and quasi-entire functions</i> | 1411 |
| <i>Integral transformations in a complex domain</i> | 1462 |
| Efimov, B. <i>Unimodular weight functions and the Aleksandrov-Uryson problem in the theory of bicomplexa</i> | 1391 |
| Egorov, Ju. V. and Miljutin, A. A. <i>Sufficient conditions for a strong extremum in the class of curves with a bounded derivative</i> | 1634 |
| Èidus, D. M. <i>The principle of limit amplitude</i> | 1327 |
| Eršov, Ju. L. <i>Unsolvable theories of symmetric and simple finite groups</i> | 1309 |
| Esajan, A. R. and Stecenko, V. Ja. <i>Estimates of the spectrum of integral operators and of infinite matrices</i> | 913 |
| Fedorjuk, M. V. <i>Asymptotic behavior of the discrete spectrum of the operator</i> $-w''(x) + \lambda^2 p(x)w(x)$ | 1279 |
| Fedosov, B. V. <i>Asymptotic formulas for the eigenvalues of the Laplace operator in the case of a polyhedron</i> | 988 |
| Fel'dman, I. A. <i>Asymptotic behavior of solutions of some systems of integral equations</i> | 52 |
| Flaksmaĭer, Ju. (Flachsmeyer, J.) <i>The system of regular open (closed) sets</i> | 607 |
| Foht, A. S. <i>A boundary value estimate for the solution of an elliptic equation of arbitrary order with variable coefficients in the case where the coefficients degenerate at the boundary</i> | 298 |
| Fomenko, V. T. <i>Infinitesimal deformations of surfaces with bush constraints</i> | 1047 |
| Freĭdlin, M. I. <i>A priori estimates of solutions of degenerating elliptic equations</i> | 1231 |
| Freĭman, G. A. <i>Addition of finite sets</i> | 1366 |
| Gabasov, R. and Kirillova, F. M. <i>The optimization of convex functionals on trajectories of linear systems</i> | 745 |
| Gal'pern, S. A. and Kondrašov, V. E. <i>The Cauchy problem for differential operators which are factorable into a product of wave operators</i> | 156 |
| Gapoškin, V. F. <i>On the convergence of orthogonal series</i> | 1445 |
| Garkavi, A. L. <i>Approximative properties of subspaces with finite defect in the space of continuous functions</i> | 440 |
| Gasymov, M. G. <i>The inverse problem for the Sturm-Liouville equation</i> | 68 |
| Gavrilov, G. P. <i>On quasi-Peano functions</i> | 750 |
| <i>The power of sets of closed classes of finite height in P_{\aleph_0}</i> | 1239 |

| | |
|--|------|
| Gehtman, M. M. and Stankevič, I. V. <i>On the spectrum of non-selfadjoint operators</i> | 1158 |
| Geĭdman, B. P. <i>The object of a centro-projective connection on a manifold with almost complex structure</i> | 1449 |
| Gel'fand, I. M.; Graev, M. I. and Pjateckii-Šapiro, I. I. <i>Representations of adèle groups</i> | 657 |
| Gerger, M. L. <i>On the possible rate of decay of a solution of an elliptic equation</i> | 586 |
| Ginzburg, Ju. P. <i>The factorization of analytic matrix functions</i> | 1510 |
| Glagolev, V. V. <i>Estimate of the complexity of a reduced disjunctive normal form for almost all functions of the algebra of logic</i> | 1302 |
| Glazkov, V. V. <i>A class of finite homomorphisms</i> | 1163 |
| Glazman, I. M. <i>Gradient relaxation for nonquadratic functionals</i> | 210 |
| Glazunov, N. I. <i>Tensor fields on compact homogeneous spaces admitting a spherical model</i> | 14 |
| Gluskin, L. M. <i>Position operatives</i> | 1001 |
| Gol'dberg, A. A. <i>The possible magnitude of the lower order of an entire function with a finite deficient value</i> | 1631 |
| Gol'dberg, A. A. and Levin, B. Ja. <i>Entire functions bounded on the real axis</i> | 859 |
| Gol'denšteĭn, L. S. <i>Tests for one-sided inverses of functions of several isometric operators and their applications</i> | 330 |
| Gol'dman, M. A. and Krackovskii, S. N. <i>Invariance of certain spaces connected with the operator $A - \lambda I$</i> | 102 |
| <i>Some perturbations of a closed linear operator</i> | 1243 |
| Golo, V. L. <i>Smooth structures on manifolds with boundary</i> | 862 |
| Golovkin, K. K. <i>On the ϵ-entropy of some compact sets of differentiable functions in spaces with a monotone norm</i> | 1209 |
| <i>Some inequalities for norms of mixed derivatives of functions of several variables</i> | 1628 |
| Golubov, B. I. <i>Fourier series of continuous functions in the Haar system</i> | 620 |
| Gončar, A. A. <i>Approximation of continuous functions by harmonic functions</i> | 105 |
| Gorbačuk, M. L. <i>Description of the continuation of positive definite kernels</i> | 1566 |
| Gorbunova, M. I. <i>Horospheres in certain Grassmann manifolds</i> | 1380 |
| Gorčakov, Ju. M. <i>The existence of abelian subgroups of infinite rank in locally solvable groups</i> | 591 |
| Gor'kov, Ju. P. <i>The behavior of solutions of boundary value problems for a quasilinear parabolic equation as $t \rightarrow \infty$</i> | 957 |
| Govorov, N. V. <i>The Riemann boundary value problem with an infinite index</i> | 255 |
| <i>The nonhomogeneous Riemann boundary-value problem with infinite index</i> | 1623 |
| Grepačevskaja, L. V. <i>Absolute summability by the methods of Cesàro, Riesz and Zygmund</i> .. | 444 |
| Grindlinger, Martin (Greenlinger, Martin) <i>Solutions of the word problem for a class of groups by means of Dehn's algorithm, and of the conjugacy problem by means of a generalization of Dehn's algorithm</i> | 110 |
| <i>Solution of the conjugacy problem for a class of groups, coinciding with their anti-centers, by means of the generalized Dehn algorithm</i> | 1384 |
| Grobman, D. M. <i>Asymptotic behavior of solutions of almost linear systems of differential equations</i> | 1306 |
| Grušin, V. V. <i>The behavior of solutions of differential equations near the boundary</i> | 1212 |
| Gudiev, A. H. <i>Imbedding theorems for certain classes of abstract functions</i> | 753 |
| Gudivok, P. M. <i>Representations of finite groups over quadratic rings</i> | 1669 |
| Guseĭnov, A. I. and Muhtarov, H. Š. <i>A class of nonlinear singular integral equations with Cauchy kernel in the class of functions vanishing at the endpoints</i> | 662 |

| | | |
|--|---|------|
| Hadeler, Karl-Peter | <i>An estimate for the spectrum of normal operators</i> | 944 |
| | <i>On the spectrum of normal operators and of their perturbations</i> | 1371 |
| Hadžimullaev, F. S. | <i>A theorem of D. Stancu</i> | 1097 |
| Halilov, Z. I. | <i>A linear control problem in Banach space</i> | 520 |
| Haradze, A. K. | <i>On the representation of ultraspherical polynomials by a differential operator containing the generating function of the polynomials</i> | 1191 |
| Harin, V. T. | <i>An approximate method of solving boundary value problems for linear equations with analytic coefficients</i> | 1373 |
| Helemskiĭ, A. Ja. | <i>Description of commutative annihilator Banach algebras</i> | 902 |
| Henkin, G. M. | <i>Linear superpositions of continuously differentiable functions</i> | 948 |
| Hmelevskiĭ, Ju. I. | <i>The solution of certain systems of word equations</i> | 724 |
| Hmyrova, N. A. | <i>On polynomials with small prime divisors</i> | 576 |
| Hoang Tui | <i>Concave programming under linear constraints</i> | 1437 |
| Hudjaev, S. I. | <i>Boundary problems for certain quasilinear elliptic equations</i> | 188 |
| Ibragimov, I. I. and Mamedhanov, D. I. | <i>Connection between weighted norms of an entire function of finite degree on lines parallel to the real axis</i> | 917 |
| Ignatenko, V. V. | <i>Power expansion for one-dimensional boundary value problems</i> | 160 |
| Il'ič-Daňovič, M. G. | <i>Infinitesimal deformations of a certain class of ribbed cylindroids</i> | 961 |
| Il'in, A. M. | <i>On a class of ultraparabolic equations</i> | 1673 |
| Iohvidov, I. S. | <i>On a lemma of Ky Fan generalizing the fixed-point principle of A. N. Tikhonov</i> | 1523 |
| Ismagilov, R. S. | <i>Description of the unitary representations of the Lorentz group in a space with indefinite metric</i> | 1217 |
| Ivanov, L. D. | <i>Smooth mappings of the space R_n into R_1</i> | 380 |
| Ivanovskii, L. N. | <i>Cohomology of the Steenrod algebra</i> | 1114 |
| Jakovlev, M. N. | <i>The solution of nonlinear equations by an iteration method</i> | 697 |
| Jakubov, S. Ja. | <i>Solvability of the Cauchy problem for evolutionary equations</i> | 785 |
| Jakubovič, V. A. | <i>Solution of certain matrix inequalities encountered in nonlinear control theory</i> | 652 |
| Jakut, L. I. | <i>The theorems of Lax for nonlinear evolutionary equations</i> | 843 |
| Janušauskas, A. | <i>On the zeros of the gradient of a harmonic function</i> | 1287 |
| | <i>The Cauchy problem for the Laplace equation, and an operation of multiplication for harmonic functions</i> | 1493 |
| Kac, I. S. | <i>Behavior of spectral functions of differential systems with boundary conditions at a singular end-point</i> | 875 |
| Kackova, O. N. and Čuškin, P. I. | <i>A scheme for the numerical method of characteristics</i> | 20 |
| Kadec, M. I. | <i>The exact value of the Paley-Wiener constant</i> | 559 |
| Kagan, A. M. and Šalaevskiĭ, O. V. | <i>The Behrens-Fisher problem: the existence of similar regions in the algebra of sufficient statistics</i> | 556 |
| Kalmykov, G. I. | <i>Reversibility of Feller processes</i> | 624 |
| | <i>Correlation functions of a Gaussian Markov process</i> | 666 |
| Kantor, I. L. | <i>Classification of irreducible transitively differential groups</i> | 1404 |
| Kapilevič, M. B. | <i>Approximation of singular solutions of the Čaplygin equation</i> | 72 |
| | <i>A method of basis expansions</i> | 871 |
| Karatoprakliev, G. | <i>A generalization of the Tricomi problem</i> | 1220 |
| Kemhadze, Š. S. | <i>Quasi-nilpotent groups</i> | 532 |
| | <i>Stable groups of automorphisms</i> | 1246 |

| | |
